

DocPoint Expands SharePoint Training Portfolio through Partnership with TekDog

Integrator is Providing Clients with World-class SharePoint and Nintex Workflow User Adoption and Training Services

Fulton, Md. – Aug. 13, 2014 – **DocPoint Solutions, Inc.**, today announces the expansion of its portfolio of SharePoint and Nintex Workflow user adoption and training services through a strategic partnership with **TekDog, Inc.** An affiliate organization of **Quality Associates, Inc.**, DocPoint specializes in the implementation, migration, governance, design, training and on-going support of Microsoft® SharePoint® and its integrated suite of products.

A leader in SharePoint and Nintex Workflow training and services, TekDog provides individuals and enterprises with creative and innovative methods to drive adoption rates and ROI through these technologies. Through this partnership, DocPoint is authorized to resell TekDog's live virtual, onsite, and on-demand video-based training services to its client base that includes government, commercial, and nonprofit businesses. As a result, DocPoint clients have the added value of turning to one, single integrator not only for their SharePoint implementation, but also for a variety of training options that allow them to get the most out of their investment.

Jason Keller, president, TekDog, Inc., said, "Partnering with DocPoint Solutions provides us with the opportunity to extend our products and services to a broader market, including the federal sector. We are looking forward to growing this partnership and seeing DocPoint's clients leverage our training expertise to maximize their ROI."

Scott Swidersky, president of DocPoint Solutions, said, "DocPoint has always offered SharePoint training services, but adding TekDog's solutions to our portfolio gives our clientele the additional option of convenient, cost-effective computer-based training. By obtaining real-world experience with SharePoint, Nintex Workflows and Office 365, our clients will more quickly drive adoption rates, which in turn, will lead to greater collaboration across the enterprise and new efficiencies."
