

GSA MULTIPLE AWARD SCHEDULE (MAS) CONTRACT

GENERAL PURPOSE COMMERCIAL
INFORMATION TECHNOLOGY EQUIPMENT,
SOFTWARE AND SERVICES

PRICELIST

11850 West Market Place | Suite P | Fulton, MD 20759
301-490-7725 (Office)
DocPointSolutions.com

Contract Number: GS-35F-0654W

Period Covered by Contract: 09-23-2010 – 09-22-2030

General Services Administration
Federal Acquisition Service

Pricelist current through Modification # PA-0131 (03/12/2026)

Products and ordering information in this Authorized Information Technology Schedule Pricelist are also available on the GSA Advantage! System (<http://www.gsaadvantage.gov>).

**AUTHORIZED INFORMATION TECHNOLOGY SCHEDULE PRICELIST
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY
EQUIPMENT, SOFTWARE AND SERVICES**

Special Item No. 518210DC	Document Conversion Services
Special Item No. 518210ERM	Electronic Records Management Solutions
Special Item No. 561439	Document Production On-Site and Off-Site Services
Special Item No. 511210	Software Licenses
Special Item No. 54151	Software Maintenance Services
Special Item No. 54151S	IT Services
Special Item No. OLM	Order-Level Materials

Note 1: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

Note 2: Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

Note 3: This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

Prices are net Prices (All Discounts have already been applied)

INFORMATION FOR ORDERING ACTIVITIES APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.gsadvantage.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page (www.gsa.gov/fas) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micro purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. GEOGRAPHIC SCOPE OF CONTRACT:

Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

- The Geographic Scope of Contract will be domestic and overseas delivery.
- The Geographic Scope of Contract will be overseas delivery only.
- The Geographic Scope of Contract will be domestic delivery only.

2. CONTRACTOR'S ORDERING ADDRESS AND PAYMENT INFORMATION:

Ordering / Payment Address: DocPoint Solutions, LLC
11850 West Market Place, Suite P
Fulton, MD 20759

Contractor must accept the credit card for payments equal to or less than the micro-purchase for oral or written orders under this contract. The Contractor and the ordering agency may agree to use the credit card for dollar amounts over the micro-purchase threshold (See GSAR 552.232-79 Payment by Credit Card). In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance:

301-490-7725 (Office)

3. LIABILITY FOR INJURY OR DAMAGE

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. STATISTICAL DATA FOR GOVERNMENT ORDERING OFFICE COMPLETION OF STANDARD FORM 279:

Block 9: G. Order/Modification Under Federal Schedule Contract
 Block 16: Data Universal Numbering System (DUNS) Number: 82-8751334
 Block 30: Type of Contractor: Corporate Entity (Not Tax Exempt)
 Block 31: Woman-Owned Small Business - NO
 Block 37: Contractor's Taxpayer Identification Number (TIN): 26-4082792
 Block 40: Veteran Owned Small Business (VOSB): NO

- 4a. CAGE Code: 5BCR3
- 4b. Contractor has registered with the Central Contractor Registration Database.

5. FOB DESTINATION

6. DELIVERY SCHEDULE

- a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

SPECIAL ITEM NUMBER	DELIVERY TIME (Days ARO)
<u>511210</u>	<u>15</u> Days
<u>54151</u>	<u>15</u> Days
<u>518210DC</u>	As Negotiated between Contractor and Ordering Agency
<u>518210ERM</u>	As Negotiated between Contractor and Ordering Agency
<u>561439</u>	As Negotiated between Contractor and Ordering Agency
<u>54151S</u>	As Negotiated between Contractor and Ordering Agency
<u>OLM</u>	As Negotiated between Contractor and Ordering Agency

SPECIAL ITEM NUMBER	EXPEDITED DELIVERY TIME (Days ARO)
<u>511210</u>	<u>5</u> Days

514151S

As Negotiated between Contractor and Ordering Agency

OLM

As Negotiated between Contractor and Ordering Agency

b. **URGENT REQUIREMENTS:** When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7. **DISCOUNTS:** Prices shown are NET Prices; Basic Discounts have been deducted.

- a. Prompt Payment: **None Offered**
- b. Quantity – **None Offered**
- c. Dollar Volume – **1% on Orders over \$500,000**
2% on Orders over \$1,000,000
- d. Government Educational Institutions - **Same discounts as all other Government customers**
- e. Other - **None Offered**

8. **TRADE AGREEMENTS ACT OF 1979, as amended:**

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. **STATEMENT CONCERNING AVAILABILITY OF EXPORT PACKING:**

All Packaging meets export-packaging requirements.

10. **Small Requirements:** The minimum dollar value of orders to be issued is \$ 100.00.

11. **MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.)**

- a. The Maximum Order value for the following Special Item Numbers (SINs) is **\$1,000,000:**
Special Item No. 518210DC Document Conversion Services

Special Item No. 518210ERM Electronic Records Management Solutions
Special Item No. 561439 Document Production On-Site and Off-Site Services

b. The Maximum Order value for the following Special Item Numbers (SINs) is **\$25,000,000**:

Special Item No. 511210 Software Licenses
Special Item No. 54151 Software Maintenance Services
Special Item No. 54151S IT Services
Special Item No. OLM Order-Level Materials

12. ORDERING PROCEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

- a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.
- b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS

REQUIREMENTS: ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS):

Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS):

Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Acquisition Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS-370) (NOV 2003)

- (a) Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.
- (b) Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. Travel in performance of a task order will only be reimbursable to the extent authorized by the ordering agency. The Industrial Funding Fee does NOT apply to travel and per diem charges.
- (c) Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.
- (d) Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.
- (e) Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.
- (f) Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.
- (g) Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.
- (h) Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.
- (i) Government-Furnished Property: As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.
- (j) Availability of Funds: Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.
- (k) Overtime: For professional services, the labor rates in the Schedule should not vary by virtue of the Contractor having worked overtime. For services applicable to the Service Contract Act (as identified in the Schedule), the labor rates in the Schedule will vary as governed by labor laws (usually assessed a time and a half of the labor rate).

15. CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES: Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of

termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See 52.212-4)

16. GSA ADVANTAGE!

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

- (1) Manufacturer;
- (2) Manufacturer's Part Number; and
- (3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is <http://www.gsaadvantage.gov>

17. PURCHASE OF OPEN MARKET ITEMS

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. ODCs (Other Direct Costs) are not part of this contract and should be treated as open market purchases. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if-**

- (1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
- (2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
- (3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
- (4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

- (1) Time of delivery/installation quotations for individual orders;
- (2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.
- (3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. OVERSEAS ACTIVITIES

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

N/A

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

21. CONTRACTOR TEAM ARRANGEMENTS

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is separable and exceeds \$2,000, then the requirements of the Davis-Bacon Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, de-installation, and re-installation services.

23. SECTION 508 COMPLIANCE.

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

WWW.DOCPOINTSOLUTIONS.COM

The EIT standard can be found at: www.Section508.gov/.

24. PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES.

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order

(a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and

(b) The following statement:

This order is placed under written authorization from _____ dated _____. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

25. INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997)(FAR 52.228-5)

(a) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.

(b) Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—

(1) For such period as the laws of the State in which this contract is to be performed prescribe; or

(2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.

(c) The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

26. SOFTWARE INTEROPERABILITY.

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>.

27. ADVANCE PAYMENTS

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)

TERMS AND CONDITIONS APPLICABLE TO DOCUMENT CONVERSION SERVICES (SPECIAL ITEM NUMBER 518210DC)

SIN 518210DC Includes scanning of the original document's text and images, converting the information to digital data, transferring the data to a new media file, and formatting the information for use in a document imaging and storage system. Customized coding and indexing options are also available as part of the document conversion process.

Cooperative Purchasing: No
Set Aside: No
FSC/PSC Code: R799
Maximum Order: \$1,000,000

NAICS

Number	Description	Business Size
518210	Data Processing, Hosting, and Related Services	\$35 million

Instructions:

ADDITIONAL INFORMATION FOR DOCUMENT CONVERSION SERVICES DESCRIPTION: The process of document conversion involves state-of-the-art scanning of the original document's text and graphic image into digital data, which is then transferred to a new media and formatted for use in a document imaging and storage system. Comprehensive DCS are used to transfer text and graphic images in existing documents (e.g., correspondence, files, technical manuals, land records, charts, engineering drawings, legal instruments, etc.) in whatever media they currently exist (e.g., paper, aperture cards, microfiche, microfilm, roll film, etc.) onto a new delivery/ storage media (e.g., CD-ROM disks, 4mm/8mm magnetic tape, magnetic storage disks, aperture cards, microfiche, microfilm, roll film, etc.) in any required format (e.g., raster images, ASCII text, SGML tagged for electronic distribution or publishing, PDF image files, etc.) required for use in a document imaging and storage system. Customized coding and indexing options are also available as part of the document conversion process. This SIN includes transcription and medical transcription services; it excludes transcriptions for Title III Monitoring.

SCOPE: Document conversion consists of scanning document images and converting them into electronic digital data, which is then transferred into a new format, and media for use in a document imaging, retrieval, and storage system. This SOW addresses the "backfile and day-forward conversion" of documents, which includes both file and data format and media conversion. It does not include data processing and communications equipment (e.g., digital computers, display devices, software, LAN/WAN networks), which may be employed in a document imaging, retrieval, and storage system. The types of DCS may include, but is not limited to: - Index data migration - Project evaluation or discovery - Optical mark scanning (OMR) - PDF Electronic file forms - Web Hosting (ASP)

GENERAL REQUIREMENTS: Unless otherwise specified by the ordering activity, the following general requirements are applicable to document conversion performed under this contract:

- a. Contractor Responsibility - The Contractor shall be responsible for furnishing all items used in performing the work unless otherwise specified or approved by the Contracting Officer. The Contractor will act independently and not as an agent of the Government.
- b. Document Conversion - The contractor shall scan a variety of source documents (e.g., correspondence, files, technical manuals, land records, charts, engineering drawings, or legal instruments) from a variety of source media (e.g., paper, film, microfiche, aperture cards, magnetic tape, or Mylar) having varying degrees of image quality (e.g., crisp originals, faded, poor contrast, or overexposed photographs) using character recognition (e.g., OCR, ICR) into a compressed digital file (e.g., C4 compressed image file)

- format) and deliver that file in a variety of output file formats (e.g., PDF, SGML, HTML, XML, CAD, word processing) on a variety of output media (e.g., optical disks, magnetic tape, or CD-ROM).
- c. Image Enhancement - The contractor shall perform image enhancement immediately after scanning. Image enhancement shall allow soiled, faded, deteriorated, and inferior quality images to be "cleaned-up". The image enhancement process shall reduce background noise and improve uneven line widths, dull edges, faded areas, and uneven illumination. If required by the ordering activity, special image enhancement (e.g., removal of date stamps and other markings, deskewing images to within 5 degrees or less of skew, cropping, rotation) shall be accomplished during the document conversion process.
 - d. Indexing - The contractor shall provide an index (in both hardcopy and digital format) for all converted data. The index shall permit tracking, retrieval, and storage of converted documents. The index shall be as specified by the ordering activity and shall consist, as a minimum, of the document number, document title, page number, revision level, and date. The index shall be structured from the source data and may be incorporated in the raster image header, incorporated as PDF Bookmarks, or provided separately, as specified by the ordering activity.
 - e. Data Entry - The contractor shall provide keystroke data entry, as required
 - f. Delivery Media - The contractor shall deliver the digitally converted data in an output media (e.g., CD-ROM, 4mm DAT or 8mm magnetic tape; 9-Track 1600 BPI or 6250 BPI magnetic tape; 3.5 inch, 5.25 inch, 12 inch, or 14 inch Write-Once Read-Many (WORM) optical or magnetic disks and/or Write-Many Read-Many optical disks) and output format (e.g., PDF text and/or image files, TIFF, BMP, JPEG, HTML, ASCII text, SGML tagged for electronic distribution or publishing, XML, CAD, word processing), as specified by the ordering activity. Delivery media shall be labeled in such a manner as to identify the contents of the deliverable.
 - g. Source Document Inspection - The contractor shall inspect all source documents and shall notify the ordering activity's Contracting Officer of any condition which will likely prevent successful performance of the work required. Such notification shall be received by the Contracting Officer within ten (10) working days (or as stipulated on the individual agency task order) following receipt of the source documents.
 - h. Quality Assurance - Unless otherwise specified by the ordering activity, the contractor shall perform 100% quality assurance of the scanned images to ensure that an image is produced for each page or microform frame; the image is equal to or better than the readability of the source page or microform frame; and the image is in accordance with the ordering activity's requirements. Marginal images (e.g., due to poor source images or film quality) shall be electronically marked and specified as such in the production reports. All indexing elements and SGML tagged data shall be parsed to ensure compliance with the requirements prior to delivery. Hollerith data shall be verified against the information contained in the title block of the document and will be edited, if necessary, to ensure the accuracy of the fields (e.g., document type, drawing number, drawing revision, sheet revision, card number, number of cards, drawing size, rights code, and security code). The ordering activity reserves the right to perform quality assurance on any products produced under this contract. Failure to meet quality assurance standards will result in re-work at the contractor's expense or contract termination, as appropriate.
 - i. Corrections - Document conversion errors caused by the contractor shall be considered corrections and shall not be charged to the ordering activity as an additional digitized item. Unless otherwise specified by the ordering activity, the contractor shall be liable for corrections for 12 months from output media delivery.
 - j. Workmanship Standards - The quality of services rendered by the contractor shall conform to the standard commercial practice in the document scanning and conversion profession, trade, or field of endeavor. All services shall be rendered by or supervised directly by individuals fully qualified in the document scanning and conversion profession, and holding any licenses required by law. Failure to meet workmanship standards will result in re-work at the contractor's expense or contract termination, as appropriate.
 - k. Basic Preparation and Handling - The contractor shall be responsible for basic document preparation and handling during all phases of the document conversion effort. The pre-conversion effort shall include document receipt, inspection, inventory and document preparation for scanning and conversion (e.g., removing bindings, paper clips, attachments, and fasteners; photocopying oversize or undersize documents; purging unnecessary information; repairing damaged originals). The conversion effort shall include all

necessary document preparation and handling. The post-conversion effort shall consist of reconstruction of the documents including the attachment of fasteners and bindings, reassemble of the documents into their original configuration, preparing a document inventory listing, and packaging/packing for return shipment to the ordering activity.

- l. Special Preparation and Handling - When special preparation and/or handling requirements are specified by the ordering activity, the contractor shall be responsible for any special document preparation and handling requirements (e.g., staple locations being required to be marked during pre-conversion preparation and the documents being re-stapled using their original staple locations at post-conversion).
- m. Production Reports - With each delivery, the contractor shall provide a Production Report (in hardcopy and digital format) that describes the data contained on the delivery media. The report shall be provided to the ordering activity's Contracting Officer or COTR and shall contain, at a minimum, the index for each document, number of pages for each document, and total pages.
- n. Monthly Volume Report - The contractor shall provide a Monthly Volume Report (in hardcopy and digital format). The report shall be provided to the ordering activity's Contracting Officer and shall, at a minimum, list the number of converted documents delivered and the percentage of work completed.
- o. Final File - The contractor shall provide a final file (in both hardcopy and digital format) upon project completion to the ordering activity's Contracting Officer. The file shall delineate those documents for which conversion has been completed; if applicable, the intermediate format in which each document has been scanned; the applicable character recognition, compression algorithm, output storage media and file format of the stored image; and an index for all converted data. The index shall, as a minimum, consist of each document number, document title, date, revision level, and page number. This index shall be structured from the source data and may be incorporated in the raster image header, incorporated as PDF Bookmarks, or provided separately, as specified by the ordering activity.
- p. Backup Copy - The contractor shall maintain a backup copy of all data generated. The backup copy shall be maintained for a period of 12 months after project completion, unless otherwise specified for a different period by the ordering activity.
- q. Returned Material - Unless otherwise specified by the ordering activity, all material provided by the ordering activity shall be returned with the delivered product in the same condition (normal wear and tear excepted) and sequence as the original submission. The contractor shall be responsible for shipping costs, unless otherwise specified by the ordering activity.
- r. Source Document Destruction - Upon termination or completion of all work, the Contractor shall comply with agency requirements for disposal. All materials produced or delivered will become and remain the property of the Government. When required by the ordering activity, the contractor shall destroy (rather than return) the source documents.
- s. Classified Documents - The contractor shall be responsible for providing the appropriate handling, distribution, and storage of classified documents in accordance with all applicable security regulations and laws.
- t. Page Pricing - Unless otherwise specified in the contractor's price proposal, page pricing shall be based on an original source page size of 8.5 inches x 11 inches. Increments for oversize source document pages shall be based on the number of whole or partial 8.5" x 11" pages.
- u. Drawing Pricing - Unless otherwise specified in the contractor's price proposal, drawing sheet pricing shall be based on the size of the drawing. Increments for oversize drawings shall be based on the number of whole or partial F size drawings.
- v. Production Facility - Unless otherwise specified by the ordering activity, production shall be performed at the contractor's facility. If the ordering activity requires scanning of the documents at a designated facility, the contractor shall provide all the necessary resources (e.g., personnel, equipment, material, and supplies) required to accomplish the work, unless otherwise specified by the ordering activity. However, the ordering activity will be responsible for providing adequate space and electrical power at the designated facility.
- w. Data Rights - All data produced in performance shall be the sole property of the Government. The Contractor agrees not to assert rights at common law or equity and not to establish any claim to statutory copyright in such data in whole or in part in any manner or form nor authorize others to do so, without prior

written consent of the Contracting Officer. This does not restrict the use or publication of such data by the Contractor or its employees.

DETAILED REQUIREMENTS: Unless otherwise specified by the ordering activity, the following detailed requirements are applicable to the contractor's document conversion efforts under this contract:

- a. Scanning - Images shall be scanned at 200 DPI (dots per inch) resolution for engineering drawings, 500 DPI for engineering drawings being converted to CAD, and 300 DPI for all other document types, except photographs, which shall be scanned at 400 DPI. Raster images shall be compressed using CCITT Group 4 algorithms as specified in Federal Information Processing Standard (FIPS) Publication 150 "Facsimile Coding Schemes and Coding Control Functions for Group 4 Facsimile Apparatus", prior to transfer to the storage media. The latest revision of FIPS Publication 150 in effect at the date of the order or as specified by the ordering activity shall be used. Proprietary compression algorithms are not acceptable. Hollerith data shall be read during image scanning and provided as an index to the image.
- b. Indexing/Coding - The index requirements (e.g., index fields, number of characters, nomenclature for the index fields) shall be specified by the agency. As a minimum (via display of the scanned image), the index shall consist of three fields having a maximum of 30 characters located peripherally on the page.
- c. Portable Document Format (PDF) Conversion - Adobe Portable Document Format conversion shall be accomplished in compliance with the latest version of the Portable Document Format Reference Manual (e.g., Version 1.3) in effect on the date of the order or as specified by the ordering activity. PDF converted formatted documents shall replicate all visual characteristics and attributes of the source document. Graphics portions of the source document shall be included in the PDF file as raster images. Scanning of graphic portions shall be provided at a resolution of 300 DPI or greater. PDF converted documents shall contain thumbnail files.
 - (1) Image Only Scanned: Source documents shall be raster scanned at 300 DPI. The scanned image shall be a bitmapped image of the original document and shall be equal to the readability of the original page. The images shall be converted to PDF Image Only files prior to being written to the delivery media.
 - (2) Image Plus Edited Text: Source documents shall be raster scanned at 300 DPI. Textual data shall be converted to ASCII utilizing OCR technology. All free standing standard character text larger than 6 point shall be edited to ensure accuracy of 95% or greater. All converted numerics shall have an accuracy of 100%. Graphics shall be provided as 300 DPI raster graphics. The document shall be converted to PDF Plus Text files prior to being written to the delivery media.
 - (3) PDF Normal: Source documents shall be raster scanned at 300 DPI. Textual data shall be converted to ASCII utilizing OCR/ICR technology. All free standing standard character text larger than 6 point shall be edited to insure accuracy of 95% or greater. All converted numerics shall have an accuracy of 100%. Suspect characters shall be corrected. Color images and photographs shall be scanned and inserted. Graphics shall be provided as 300 DPI raster graphics. The original fonts and format of the document shall be maintained. The document shall be converted to PDF Normal files prior to being written to the delivery media.
 - (4) Hyperlinking: Hyperlinks shall be created for each item contained in the content reference pages of the document (e.g., Tables of Contents, Indexes). In addition, hyperlinks shall be created for all intact internal references. Bookmarks and Thumbnails shall be created for each document. PDF Normal processing of the documents is required prior to hyperlinking.
 - (5) Application File: When required by the ordering activity, an application (output) file from PDF converted documents (e.g., in a word processing format) shall be created. Application files shall be created after completion of any PDF document quality assurance and editing.
 - (6) Accuracy: The accuracy requirements for documents converted using optical recognition technology (e.g., OCR, ICR) shall be applicable to each page as specified by the ordering activity. The percent accuracy is defined as the number of correct characters per page (i.e., characters in the

converted document that are the same as the corresponding character in the source document) divided by the total number of characters on the page multiplied by 100.

- d. Standard Graphic Markup Language (SGML) Tagging - Paper documents shall be raster scanned at 300 DPI. Textual data shall be converted to ASCII utilizing Optical Character Recognition (OCR) technology. All free standing standard character text larger than 6 point shall be proofed and edited to ensure accuracy of 99.5% or greater. All converted numerics shall have an accuracy of 100%. Graphics shall be provided as 300 DPI raster graphics. Tagged data shall be in accordance with the Document Type Definition (DTD) and the Style Sheet. Tagged data shall provide 100% parsing against the provided DTD. Intact internal references shall be tagged.
 - (1) Level I: Level I SGML tagging shall consist of DTDs that are targeted at electronic browsers, which utilize a limited number of tags to describe the basic document.
 - (2) Level II: Level II SGML tagging shall consist of DTDs that are targeted at complex publishing systems which require an increased number of tags, tag attributes, and specific structural relationships to produce the required printed document.
- e. HyperText Markup Language (HTML) Conversion - Conversion shall be in accordance with the latest version of the W3C Recommendations (e.g., HTML Version 4.0) in effect on the date of order or as specified by the ordering activity.
- f. Extensible Markup Language (XML) Conversion - Conversion shall be in accordance with the latest version of the W3C Recommendations (e.g., XML Version 1.0) in effect on the date of the order or as specified by the ordering activity.
- g. Graphics File Formats (e.g., GIF, JPEG) - The specific graphic file format shall be as specified by the ordering activity.
- h. Application Files (e.g., Word, CAD, WordPerfect) - The specific application file format shall be as specified by the ordering activity
- i. CD-ROM Mastering: Converted data shall be pre-mastered in accordance with ISO 9660, Volume and File Structure of CD-ROM Information Exchange specification using the latest version in effect on the date of the order or as specified by the ordering activity. CD-ROM masters shall be produced in accordance with industry standards as defined in the CR-ROM Yellow Book.
- j. CD-ROM Replication: Replicas shall mark as specified by the ordering activity. Replicas shall be provided in CD-ROM.

ACRONYMS AND DEFINITIONS

- a. ASCII (American Standard Code for Information Interchange). An 8 bit code representing English letters, characters and numbers. Seven bits are used to identify each individual entity (128 maximum) with one bit for parity. Extended ASCII uses of eight bits to represent up to 256 characters with no parity bit. Most computers use ASCII to represent text, which makes it possible to transfer data from one computer to another.
- b. BMP (BitMaP) - The standard bit-mapped graphics format used in the Windows environment.
- c. Backfile Conversion - Converts existing files for use in an imaging system.
- d. BCR (Bar Code Recognition)- The recognition of bar code (i.e., A method of representing data by combining lines of varying width.).
- e. CCITT (Consultative Committee on International Telephone and Telegraphy) sets standards for phones, faxes, modems, etc.
- f. COLD (Computer Output to Laser Disk) - The computer system contains files of ASCII data (from input or application programs) or bit-mapped files previously scanned from microfilm documents or pictures. These output files are compress by a factor of 5-20:1 from the original documents and stored on WORM optical/laser disks.

- g. DTD (Document Type Definition) - A description of the types of tags allowed in a document as well as the order in which they appear.
- h. FTP (File Transfer Protocol) - An Internet protocol to move files from one computer to another.
- i. Grayscale - The binary range of a graphic representation between pure black and pure white. A scale of 256 shades of gray will be a better representation than 16 shades.
- j. HTML (Hypertext Markup Language) - HTML is a W3C standard (i.e., W3C HTML Recommendations) based upon SGML that is designed to specify the logical organization of a document. HTML instructions divide the text of a document into blocks called elements that define how the body of the document is to be displayed by the browser and those that define information about the document (e.g., title, relationship to other documents). Use of HTML instructions is based on detailed rules (e.g., the names of tags/elements, how they can be used), which are defined using SGML. There are three variants of HTML 4.0 (i.e., HTML 4.0 Transitional, HTML 4.0 Strict, and HTML 4.0 Frameset).
- k. ICR (Intelligent Character Recognition) - The conversion of scanned images (bar codes or patterns of bits) to computer recognizable codes (ASCII characters and files) by means of software/programs, which define the rules of and algorithms for conversion.
- l. ITU-T - CCITT renamed Telecommunication Standardization Section of the International Telecommunications Union.
- m. JPEG (Joint Photographic Experts Group) - A compression algorithm for color image files.
- n. Optical Character Recognition - The computer processing/conversion of scanned images both full text and forms to computer recognizable codes (ASCII letter, numbers, and characters).
- o. PDF (Portable Document File) - PDF is a standard (i.e., Portable Document Format Reference Manual) provides a way of distributing, viewing, and printing documents with consistent appearance across a number of computer platforms. Files created from printed documents closely match the paper version including graphics, photographs, and fonts and are compressed for easy downloading and distribution. To view a .pdf file, an Adobe Acrobat Reader must be installed on the computer.
- p. SGML (Standard Generalized Markup Language) - SGML is an ISO Standard (i.e., ISO 8879), which delineates a methodology of describing architecture for information exchange. SGML is a synthesis of three things: A Document Type Definition (DTD), a style sheet, and tagged data. The DTD describes which tags are allowed. The style sheet describes how the corresponding tag is to be formed. The tagged data is the document, in which every piece of data is "tagged", using tags defined in the DTD and Style Sheet.
- q. Style Sheet - Describes how the SGML tag is to be formed.
- r. TIFF (Tagged Image File Format) - One of the most widely supported files formats for storing bit-mapped images (8-bit color and grayscale) on personal computers. Includes several types and groups, which are compressed and uncompressed.
- s. XML (extensible Markup Language) - XML is a W3C standard (i.e., W3C XML Recommendations) that could revolutionize the way intranet applications and document and non-document content are built and managed. XML promises "write once, publish anywhere" simplicity to users who don't have to become experts in Web programming languages. XML is an "instance" of SGML.
- t. WORM (Write Once Read Many) - Permanent optical storage method where data once written, cannot be erased or altered.
- u. W3C (World Wide Web Consortium) - W3C is an international industry consortium, which was founded in 1994 to lead the World Wide Web in developing common protocols that promote its evolution and ensure its interoperability. W3C develops standards, which are published in the form of Recommendations.

**TERMS AND CONDITIONS APPLICABLE TO ELECTRONIC RECORDS
MANAGEMENT SOLUTIONS (SPECIAL ITEM NUMBER 518210ERM)**

SIN 518210ERM Electronic Records Management Solutions provide a comprehensive capability to solve the complex challenges posed by the movement, manipulation, archiving, security, and management of electronic records. The vendor provides professional management and administrative support personnel with the necessary skills to perform effective record management services for both classified and/or unclassified records. The services are provided using either Government or vendor equipment and facilities or a combination of both. The objective of electronic records management services is to permit the access, maintenance, control, storage, disposition, and transfer of electronic records. Includes any ancillary supplies and/or services necessary to provide a total electronic records management solution.

Cooperative Purchasing: No
Set Aside: No
FSC/PSC Code: R617
Maximum Order: \$1,000,000

NAICS

Number	Description	Business Size
518210	Data Processing, Hosting, and Related Services	\$35 million

Instructions:

NOTE: Electronic Records Management Solutions provide a comprehensive capability to solve the complex challenges posed by the movement, manipulation, archiving, security, and management of electronic records. The vendor provides professional management and administrative support personnel with the necessary skills to perform effective record management services for both classified and/or unclassified records. The services are provided using either Government or vendor equipment and facilities or a combination of both. The objective of electronic records management services is to permit the access, maintenance, control, storage, disposition, and transfer of electronic records. Includes any ancillary supplies and/or services necessary to provide a total electronic records management solution.

NOTE: Ordering Agencies are responsible for ensuring that vendors comply with all NARA regulations for electronic records management. All vendors must complete the Electronic Records Management (ERM) Vendor Capability Certification (located at www.gsa.gov/mascategoryrequirements) in order to certify their specific ERM capabilities.

Purpose:

Records management services provide various federal agencies technical support and solutions, i.e., file management and file storage, for managing records including files and documents by using state of the art records and information management solutions. This will enable ordering agencies to track, access, and retrieve documents and/or information in a timely manner throughout the entire lifecycle of the record. Ordering agencies will be able to dispose of records in accordance with approved schedules as well.

Scope of Work:

The vendor is responsible for providing personnel, materials, software, equipment, and as applicable, facilities to perform all work requirements as indicated in an ordering agency's task order. Records management services include

the management of records at all stages of the lifecycle. Disposal of all documents shall be accomplished through Document Destruction Services.

Electronic Records Management Services - Electronic Records Management Services include but are not limited to helping agencies ensure records are reliable, authentic, have integrity, remain usable, and include the necessary content, context and structure. Records management also includes the ability to maintain records securely, manage access and retrieval, preserve records for as long as necessary and execute disposition.

File Organization and Maintenance Services - File Organization and Maintenance Services provides intellectual and physical support to enable the Government control of documents or information. It includes the organization of sophisticated documents and/or information placing it into a simplified filing system in accordance with an ordering agency's needs to improve their existing work environment. Generally, it includes gathering documents and data to be scanned and indexed into a digitized format. However, an ordering agency may simply require updating to an existing file system, maintenance of documents, or organizing existing documents or information into a storage media for shipping.

Verification:

Electronic records management systems or solutions must meet the applicable requirements as presented in the Universal Electronic Records Management (ERM) Requirements attachment to the solicitation. NARA created the Universal ERM Requirements to, (1) provide standards for agencies and existing Lines of Business to manage their electronic records; (2) help vendors determine capabilities for their ERM tools; and (3) help agencies identify the best tools to procure for their needs. For more information about the ERM Requirements contact NARA via PRMD@NARA.Gov. Note that these requirements will be periodically updated by NARA and will be incorporated into the MAS solicitation through a refresh and corresponding Mass Modification.

Security:

Background check

All vendor personnel with access to Federal records will be required to sign non-disclosure agreements. Some agencies may require vendor personnel obtain a security clearance before receiving access to records. Security clearances, when required on individual orders, will be obtained at the vendor's expense. Because of the nature and sensitivity of the records that will be handled by the vendor, care must be given to safeguarding records regardless of where the records are held or stored. Confidentiality of records must be maintained at all times. Records containing Controlled Unclassified Information must be safeguarded in accordance with 32 CFR 2002.20 standards.

Lifecycle Electronic Records Management:

Vendor is responsible for meeting and satisfying applicable requirements for managing electronic records throughout their lifecycle as defined in the ERM Requirements Collection and in this section. The broad categories of the electronic records management requirements are defined as follows:

Capture - Refers to the idea of placing an object under records management control for disposition and access purposes. Objects are not necessarily moved from the system they reside in when they are captured.

Maintain & Use - The process of managing records through their most active stage. This includes ensuring records are migrated and transformed as systems change, so the records remain usable.

Disposal - The period when records have met their retention period and no longer have business value to the organization. Records that meet these conditions are destroyed in accordance with their records retention schedule using methods such as those outlined in NIST Special Publication 800-88.

Transfer - Records that are identified as having historical value are permanent records. These permanent records are kept by the agency for a period of time specified by their records retention schedule; the records are then legally transferred to NARA for permanent storage.

Metadata - Identifiers that describes the context, content, and structure of the records. Examples include author, document type, date, record category, file size, etc.

Reporting - Generating reports to allow for further analysis and to demonstrate effective controls and compliance. Reports may include search results, records eligible for disposition, audit logs, and other customized or ad hoc reports.

Disposition:

Disposition is the process of destroying temporary records or transferring permanent records to NARA once they have met their retention period outlined in their NARA approved records schedule. When records have reached the end of their lifecycle, the vendor shall manage the disposition process. This includes notifying the records custodians of the ordering agency that records are eligible for disposal or transfer and implementing, managing, and removing court ordered or agency directed disposition holds placed on Federal records.

The vendor shall transfer permanent records to NARA in accordance with the requirements outlined in regulations defined in 36 CFR, Chapter XII, Subpart 1235.

Other General Requirements:

Storage:

Vendor's facilities used for the storage of electronic records on media, which are not part of operational IT systems, must meet the requirements and regulations defined in 36 CFR, Chapter XII, Subpart 1236.28.

Quality Assurance:

The Vendor shall have a quality control/quality assurance plan that meets the Government's requirements. The Vendor shall maintain records throughout the contract period concerning the results of its inspections and monitoring procedures and the Contracting Officer or designee shall provide copies of these to the Government upon request. These records shall also be made available to the Government when conducting an audit. NARA will review and make recommendations concerning the report as needed. The reports and related documentation shall be part of the information used and revised on periodic audits.

The Vendor must maintain up-to-date documentation about any electronic records management system or solutions that is adequate to: 1) Specify all technical characteristics necessary for reading and processing the records contained in the system; 2) Identify all inputs and outputs; 3) Define the contents of the files and records; 4) Determine restrictions on access and use; 5) Understand the purpose(s) and function(s) of the system; 6) Describe update cycles or conditions and rules for adding, changing, or deleting information in the system; and 7) Ensure the timely, authorized disposition of the records.

Personnel Requirements:

The vendor shall provide skilled personnel that may include the supervisory, management, and administrative services necessary to successfully meet the Government's requirements for Records Management Services per the ordering agency's task order. All Vendor employees assigned to this contract who create, work with, or otherwise handle records are required to take [Agency]-provided records management training. The Vendor is responsible for

confirming training has been completed according to agency policies, including initial training and any annual or refresher training.

Technical Advisory Services:

On an as needed basis, the vendor will provide technical advisory services addressing records management issues relating to the entire lifecycle of records. Services that may be required include, file maintenance, forms design, and automated applications. All vendor personnel shall have met the applicable requirements defined in the previous Security section of this document.

NOTE: Under this SIN, contractors are permitted to quote the appropriate combination of electronic records management products, services and ancillary items from any other category under MAS in order to provide a total solution; however, the terms and conditions of the SIN under which the items are awarded must be applied. For example, a contractor could quote under SIN 518210ERM with electronic records management services along with some physical records management services from SIN 493110RM, document conversion services from SIN 518210DC and document destruction services from SIN 561990. The contractors awarded terms and conditions from SINs 493110RM, 518210DC, and 561990 must be applied to the total solution quoted under SIN 518210ERM. Note that sales in the amount of the total order should be reported and IFF remitted through SIN 518210ERM.

SIN 518210ERM - Vendor Certification for Electronic Records Management Solutions
Version 3.0 (As of MAS Refresh 18)

For the purposes of the MAS Solicitation, eight (8) specific elements of Electronic Records Management (ERM) Services have been identified. These 8 elements are fully defined and the corresponding requirements are identified in NARA’s *Universal Electronic Records Management Requirements* spreadsheet attachment to the Solicitation. These requirements have been established and are administered by the National Archives and Records Administration (NARA). Vendors may provide any combination of the 8 elements of ERM solutions; however, vendors must certify that they are capable of meeting all standards associated with the elements they propose by completing this self-certification. Vendors must include a completed copy of this certification in their published GSA MAS Contract Price List to help illustrate their ERM capabilities to federal customer agencies.

Proposed Elements of Electronic Records Management Services:

By selecting the below Elements, you are self-certifying you meet NARA’s Universal ERM Requirements for that Element. Select all Elements that apply.

- X Element 1 - Office Management Applications
- X Element 2 - Electronic Messages
- X Element 3 - Social Media
- X Element 4 - Websites
- X Element 5 - Photographs (Born-Digital and Scanned Images)
- X Element 6 - Digital Audio and Video
- X Element 7 - Structured Data
- X Element 8 - Shared Drives

In the space below you must provide a brief summary description for each of the above Elements that you have checked off. The summary must include which ERM products/ services/ solutions — currently awarded under SIN 518210ERM of your MAS contract — are related to the respective Element. Example questions are provided for each Element to assist with your response. Those questions are based on NARA’s Universal Electronic Records Management Requirements and reflect common questions from agencies. *If you cannot provide a summary description for a given Element, or you do not currently offer products/services/solutions under SIN 518210ERM*

related to that Element, you cannot self-certify that Element on this form. Please use as much space as you need below, but be concise! Please respond as “Not applicable” for any Element you did not select above.

The specifics of your below responses are not part of the evaluation criteria for adding SIN 518210ERM. The intention of the below section is to assist agencies with market research and help agencies understand your offerings / capabilities as they relate to the above ERM Elements you have selected.

If you have questions about the above ERM Elements and the information on NARA’s Universal ERM Requirements spreadsheet, please contact NARA’s Records Management Policy Team at rmpolicy@nara.gov.

Element 1 - Office Management Applications

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 1. Some example questions to consider are: Which office management applications does your service/solution manage (e.g. Microsoft 365, Google Workspace, etc.)? How do you associate Office Management documents with a records schedule? How do you apply metadata to Office Management documents?

Response for Element 1 —

DocPoint Solutions, Inc. (DocPoint), specializes in consultation, architecture, planning and design for Microsoft® (M365), Azure platform and its integrated suite of products. DocPoint offers innovative enterprise and cloud content management solutions, process automation that place organizations’ business processes, challenges and objectives as the primary system design criteria.

Early on DocPoint saw agencies struggling with information—how to input, store, share and manage their data—especially at the enterprise level. DocPoint recognized that the Microsoft suite was the ideal platform to solve these challenges due to cost, compatibility and consumer familiarity, as well as added functionality from third-party add-on solutions.

Capabilities:

- Business Analysis and Process Improvement** - Aligning technology with business goals
- Microsoft 365 Assessments** - Understanding your data
- Information Governance** - Building records management and compliance plans
- Project Management** - A key element driving success
- M-19-21/M-23-07 Compliance** - Meet the fast-approaching deadline
- SharePoint Installations and Upgrades** - Support for all scenarios
- Migration** - Moving digital information between databases and work cloud platforms
- eSignatures** - Integrated into approval workflow
- Process Automation** - Streamline and optimize tasks, activities and workflow
- Customer Relationship Management and Microsoft 365** - A powerful combination
- Search & Accessibility** - Information at your fingertip
- Staff Augmentation** - Project management, business analysis, solution architect and development
- SharePoint Architecture Offerings** - Applying Microsoft best practices
- Value Added Reseller (VAR)** - Bridge between manufacturers and end customers

Solution Tools and Technologies:

- Automation Anywhere** – for automation and governance
- Kudzu** – for workflow and migration
- OneSpan** – for eSignatures
- AvePoint** – for infrastructure management/migration, records management and cloud back-up
- Microsoft** – for automation, collaboration and workflow

- ProjectHosts** – for cloud back-up
- Box** – for cloud options and hosting
- Nintex** – for automation, eSignatures and workflow
- ShareGate** – for migration and infrastructure management
- Gimmal** – for records management, discovery and migration
- OnBase** – for records management
- Kofax** – for capture and automation
- UiPath** – for automation and workflow

DocPoint’s understanding of document control, information management and workflows, combined with experience using M365 as an Intelligent Information Management (IIM) system, gives us the capability to analyze and understand customer requirements. DocPoint provides strategic SharePoint and cloud content services, consulting, design, integration, delivery and support to a growing Federal, State and Local government customer base.

Element 2 - Electronic Messages

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 2. Some example questions to consider are: Which electronic messages does your service/solution manage (e.g. SMS/MMS, iMessage, WhatsApp, social media messages, voicemail, etc.)? Are you able to capture SMS/MMS at the carrier-level? How do you apply metadata to electronic messages? Where are records stored (e.g. managed in the system in which they were created or in a dedicated recordkeeping system)?

Response for Element 2 —

DocPoint is able to migrate data (messages) that originate in many electronic messaging platforms into a compliant ERM environment. Managing the data from apps is handled separately. The effort to integrate with for instance carriers, is limited.

Metadata can be added to the dedicated content management system at the point of ingestion. Fields that can be automatically populated are:

- Content Type/Data Type
- File creation date (from the original source)
- Date of creation in the ERM system
- Location

Capabilities:

- Business Analysis and Process Improvement** - Aligning technology with business goals
- Microsoft 365 Assessments** - Understanding your data
- Information Governance** - Building records management and compliance plans
- Project Management** - A key element driving success
- M-19-21/M-23-07 Compliance** - Meet the fast-approaching deadline
- SharePoint Installations and Upgrades** - Support for all scenarios
- Migration** - Moving digital information between databases, solutions and cloud platforms.
- Process Automation** - Streamline and optimize tasks, approval activities and workflow
- Customer Relationship Management and Microsoft 365** - A powerful combination
- Search & Accessibility** - Information at your fingertips
- Staff Augmentation** - Project management, business analysis, solution architect and development
- SharePoint Architecture Offerings** - Applying Microsoft best practices for managing content
- Value Added Reseller (VAR)** - Bridge between manufacturers and end customers

Solution Tools and Technologies:

- Automation Anywhere** – for automation and governance
- Kudzu** – for workflow and migration
- OneSpan** – for eSignatures
- AvePoint** – for infrastructure management / migration, records management and cloud back-up
- Microsoft** – for automation, collaboration and workflow
- ProjectHosts** – for cloud back-up
- Box** – for cloud options an hosting
- Nintex** – for automation, eSignatures and workflow
- ShareGate** – for migration and infrastructure management
- Gimmel** – for records management, discovery and migration
- OnBase** – for records management
- Kofax** – for capture and automation
- UiPath** – for automation and workflow

Most of our dedicated ERM solutions reside on M365 and we use both out-of-the-box capabilities along with 3rd party applications when applicable.

Element 3 - Social Media

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 3. Some example questions to consider are: Which social media platforms does your solution/services capture and manage (e.g. Facebook, YouTube, Instagram, WordPress)? What technology is used to capture social media records? What frequency can your solution/services capture? How do you address changes in what social media platforms allow for capture?

Response for Element 3 —

DocPoint handles a records cycle for social media similar to electronic messages. Content is stored in the entity's selected ERM platform. When social media accounts are managed by an agency (entity) that agency team has the ability to create exports of that content. The exported content can then be migrated (i.e.) ingested by the ERM platform and stored according to its retention period.

Frequency is handled at the source for content that is outside of the ERM platform, for example: an agency wants to capture their FaceBook posts (specific account) every 12 hours, the account exports can be scheduled at the assigned interval.

Many of these export processes can be efficiently handled with RPA tools that are often already available within the agencies current application stack.

An example of an agencies ERM platform managing social media internally: if an agency is using M365 as their ERM platform and Teams as a social media platform, M365 could handle that at the tenant level and without the need to export and them import for retention.

Capabilities:

- Business Analysis and Process Improvement** - Aligning technology with business goals
- Microsoft 365 Assessments** - Understanding your data
- Information Governance** - Building records management and compliance plans
- Project Management** - A key element driving success
- M-19-21/M-23-07 Compliance** - Meet the fast-approaching deadline
- SharePoint Installations and Upgrades** - Support for all scenarios

Migration - Moving digital information between databases, solutions and cloud platforms.
Process Automation - Streamline and optimize tasks, approval activities and workflow
Customer Relationship Management and Microsoft 365 - A powerful combination
Search & Accessibility - Information at your fingertips
Staff Augmentation - Project management, business analysis, solution architect and development
SharePoint Architecture Offerings - Applying Microsoft best practices for managing content
Value Added Reseller (VAR) - Bridge between manufacturers and end customers

Solution Tools and Technologies:

Automation Anywhere – for automation and governance
Kudzu – for workflow and migration
OneSpan – for eSignatures
AvePoint – for infrastructure management / migration, records management and cloud back-up
Microsoft – for automation, collaboration and workflow
ProjectHosts – for cloud back-up
Box – for cloud options an hosting
Nintex – for automation, eSignatures and workflow
ShareGate – for migration and infrastructure management
Gimmel – for records management, discovery and migration
OnBase – for records management
Kofax – for capture and automation
UiPath – for automation and workflow

Questions for Element 4 - Websites

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 4. Some example questions to consider are: What technology do you use to crawl websites? Do you have the capability to capture internal and external sites? What formats do you use for web captures? Can you capture websites in NARA-acceptable formats? What quality assurance processes/tools do you offer?

Response for Element 4 —

DocPoint is familiar with meeting Website ERM needs. We find that this is handled at several different levels.

IT – IT teams natively handle system backups of websites. This covers the pages (HTML, Java/ActiveX applets, and CGI scripts). These aren't necessarily "records", but when part of a backup schedule, they are retrievable within the assigned backup schedule.

WebPart Contents – Many times forms/documents for referencing data/reports posted on websites can be classified as a type of record. Typically, these reference documents do not have their retention managed on the website. That is handled in the ERM platform and the website is a copy.

Form Data – Information that is captured is stored in its source platform and not typically in the Website itself. For example: when there is a request for information, the data related to that request can be considered a record. If the source platform capturing the forms data is not the same as the ERM platform, the request would need to be migrated to the ERM platform, possibly as a PDF.

The subject of capturing Website content for records management is a great conversation to have with agencies and always the best way to start. Agencies have different platforms that manage data in different

formats. Always keep in mind that records can optionally be managed in place. Migrating to an ERM is not always required.

Capabilities:

- Business Analysis and Process Improvement** - Aligning technology with business goals
- Microsoft 365 Assessments** - Understanding your data
- Information Governance** - Building records management and compliance plans
- Project Management** - A key element driving success
- M-19-21/M-23-07 Compliance** - Meet the fast-approaching deadline
- SharePoint Installations and Upgrades** - Support for all scenarios
- Migration** - Moving digital information between databases, solutions and cloud platforms.
- Process Automation** - Streamline and optimize tasks, approval activities and workflow
- Customer Relationship Management and Microsoft 365** - A powerful combination
- Search & Accessibility** - Information at your fingertips
- Staff Augmentation** - Project management, business analysis, solution architect and development
- SharePoint Architecture Offerings** - Applying Microsoft best practices for managing content
- Value Added Reseller (VAR)** - Bridge between manufacturers and end customers

Solution Tools and Technologies:

- Automation Anywhere** – for automation and governance
- Kudzu** – for workflow and migration
- OneSpan** – for eSignatures
- AvePoint** – for infrastructure management / migration, records management and cloud back-up
- Microsoft** – for automation, collaboration and workflow
- ProjectHosts** – for cloud back-up
- Box** – for cloud options and hosting
- Nintex** – for automation, eSignatures and workflow
- ShareGate** – for migration and infrastructure management
- Gimmal** – for records management, discovery and migration
- OnBase** – for records management
- Kofax** – for capture and automation
- UiPath** – for automation and workflow

Questions for Element 5 - Photographs (Born-Digital and Scanned Images)

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 5. Some example questions to consider are: How do you associate Photographs with a records schedule? How do you apply metadata for categorization and searchability to Photographs?

Response for Element 5 —

DocPoint's understanding of content capture, information management and workflows, combined with experience using M365 as an Intelligent Information Management (IIM) system, gives us the capability to analyze/organize data and understand customer requirements. DocPoint provides strategic content management services, consulting, design, integration, delivery and support to a growing Federal, State and Local government customer base.

Capabilities:

- Business Analysis and Process Improvement** - Aligning technology with business goals
- Collection Assessments** - Understanding your data

- Information Governance** - Building records management and compliance plans
- Project Management** - A key element driving success
- Migration** - Moving digital information between databases and work cloud platforms
- Process Automation** - Streamline and optimize tasks, activities and workflow
- Search & Accessibility** - Information at your fingertip
- Staff Augmentation** - Project management, business analysis, solution architect and development
- Value Added Reseller (VAR)** - Bridge between manufacturers and end customers

Solution Tools and Technologies:

- AvePoint** – for infrastructure management/migration, records management and cloud back-up
- Microsoft** – for automation, collaboration and workflow
- Box** – for cloud options and hosting
- Nintex** – for content automation and workflow
- ShareGate** – for migration and infrastructure management
- Gimmal** – for records management, discovery and migration
- OnBase** – for records management
- Kofax** – for capture and automation
- UiPath** – for automation and workflow

Questions for Element 6 - Digital Audio and Video

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 6. Some example questions to consider are: How do you associate Digital Audio and Video files with a records schedule? How do you apply metadata for categorization and searchability to Digital Audio and Video?

Response for Element 6 —

DocPoint’s understanding of content capture, information management and workflows, combined with experience using M365 as an Intelligent Information Management (IIM) system, gives us the capability to analyze/organize data and understand customer requirements. DocPoint provides strategic content management services, consulting, design, integration, delivery and support to a growing Federal, State and Local government customer base.

Capabilities:

- Box** – for cloud options and hosting
- Nintex** – for content automation and workflow

- ShareGate** – for migration and infrastructure management
- Gimmal** – for records management, discovery and migration
- OnBase** – for records management
- Kofax** – for capture and automation
- UiPath** – for automation and workflow

Questions for Element 7 - Structured Data

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 7. Some example questions to consider are: What is your approach to managing structured data? Do you offer solutions additional to what the agency uses, work with their current systems, or both?

Response for Element 7 —

DocPoint’s understanding of content capture, information management and workflows, combined with experience using M365 as an Intelligent Information Management (IIM) system, gives us the capability to analyze/organize data and understand customer requirements. DocPoint provides strategic content management services, consulting, design, integration, delivery and support to a growing Federal, State and Local government customer base.

Capabilities:

- Business Analysis and Process Improvement** - Aligning technology with business goals
- Collection Assessments** - Understanding your data
- Information Governance** - Building records management and compliance plans
- Project Management** - A key element driving success
- Migration** - Moving digital information between databases and work cloud platforms
- Process Automation** - Streamline and optimize tasks, activities and workflow
- Search & Accessibility** - Information at your fingertip
- Staff Augmentation** - Project management, business analysis, solution architect and development
- Value Added Reseller (VAR)** - Bridge between manufacturers and end customers

Solution Tools and Technologies:

- AvePoint** – for infrastructure management/migration, records management and cloud back-up
- Microsoft** – for automation, collaboration and workflow
- Box** – for cloud options and hosting
- Nintex** – for content automation and workflow
- ShareGate** – for migration and infrastructure management
- Gimmal** – for records management, discovery and migration
- OnBase** – for records management
- Kofax** – for capture and automation
- UiPath** – for automation and workflow

Questions for Element 8 - Shared Drives

Please provide a brief summary of your awarded offerings (products/services/solutions) under SIN 518210ERM that help agencies meet Element 8. Some example questions to consider are: What capabilities does your solution/services provide for identifying duplicates? What other organizational methods do you employ for managing shared drives?

Response for Element 8 —

DocPoint’s understanding of content capture, information management and workflows, combined with experience using M365 as an Intelligent Information Management (IIM) system, gives us the capability to analyze/organize data and understand customer requirements. DocPoint provides strategic content management services, consulting, design, integration, delivery and support to a growing Federal, State and Local government customer base.

TERMS AND CONDITIONS APPLICABLE TO DOCUMENT PRODUCTION ON-SITE AND OFF-SITE SERVICES (SPECIAL ITEM NUMBER 561439)

SIN 561439 Includes the necessary equipment (e.g. high-volume digital color copiers, scanners) and personnel required for effective on-site/off-site document production. Also includes single or multiple shift production operations, consumable supplies (paper and transparencies are usually not included), on-going equipment maintenance, and customized agency reports.

NOTE: Consider job turnaround time, maximum number of impressions per day or month, document quality expectations, etc.

Cooperative Purchasing: No
Set Aside: No
FSC/PSC Code: R799
Maximum Order: \$1,000,000

NAICS

Number	Description	Business Size
561439	Other Business Service Centers (including Copy Shops)	\$16.5 million

Instructions:

NOTE: A typical document production service would include the required equipment (e.g., high-volume digital color copiers, scanners) and contractor provided operational and management personnel required for effective on-site/off-site document production. Document production services are available using either contractor provided and installed equipment, using existing Government-owned equipment, or using equipment installed in Government locations under Lease-to-Ownership Plans. In addition, single or multiple shift production operations; consumable supplies (paper and transparencies are usually not included); on-going equipment maintenance; and customized agency reports are included. Negotiated Operational Performance Standards may be jointly developed and included in the purchase order (e.g., job turn-around time, maximum number of impressions per day or month, document quality expectations, turn-around performance and accuracy ratings, management of consumable supplies, and monthly management reports).

TERMS AND CONDITIONS APPLICABLE TO SOFTWARE LICENSES (SPECIAL ITEM NUMBER 511210) AND SOFTWARE MAINTENANCE SERVICES (SPECIAL ITEM NUMBER 54151) OF GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY SOFTWARE

INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its post acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

GUARANTEE/WARRANTY

- a. Unless specified otherwise in this contract, the Contractor’s standard commercial guarantee/warranty as stated in the contract’s commercial pricelist will apply to this contract.
- b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.
- c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

TECHNICAL SERVICES

The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number 301-490-7725 for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number is available from **8:00am to 5:00pm Eastern time, weekdays**.

SOFTWARE MAINTENANCE

- a. Software maintenance as it is defined: (select software maintenance type):

 X 1. Software Maintenance as a Product (SIN 511210)

Software maintenance as a product includes the publishing of bug/defect fixes via patches and updates/upgrades in function and technology to maintain the operability and usability of the software product. It may also include other no charge support that are included in the purchase price of the product in the commercial marketplace. No charge support includes items such as user blogs, discussion forums, on-line help libraries and FAQs (Frequently Asked Questions), hosted chat rooms, and limited telephone, email and/or web-based general technical support for user’s self-diagnostics.

Software maintenance as a product does NOT include the creation, design, implementation, integration, etc. of a software package. These examples are considered software maintenance as a service.

Software Maintenance as a product is billed at the time of purchase.

 X

2. Software Maintenance as a Service (SIN 54151)

Software maintenance as a service creates, designs, implements, and/or integrates customized changes to software that solve one or more problems and is not included with the price of the software. Software maintenance as a service includes person-to-person communications regardless of the medium used to communicate: telephone support, on-line technical support, customized support, and/or technical expertise which are charged commercially. Software maintenance as a service is billed arrears in accordance with 31 U.S.C. 3324.

Software maintenance as a service is billed in arrears in accordance with 31 U.S.C. 3324.

b. Invoices for maintenance service shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). **PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.**

PERIODS OF SOFTWARE LICENSES (SIN 511210) AND SOFTWARE MAINTENANCE SERVICES (SIN 54151)

- a. The Contractor shall honor orders for periods for the duration of the contract period or a lesser period of time.
- b. Term licenses and/or maintenance may be discontinued by the ordering activity on thirty (30) calendar days written notice to the Contractor.
- c. Annual Funding. When annually appropriated funds are cited on an order for term licenses and/or maintenance, the period of the term licenses and/or maintenance shall automatically expire on September 30 of the contract period, or at the end of the contract period, whichever occurs first. Renewal of the term licenses and/or maintenance orders citing the new appropriation shall be required, if the term licenses and/or maintenance is to be continued during any remainder of the contract period.
- d. Cross-Year Funding Within Contract Period. Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.

A Multi-year License is only available if the Ordering Activity has obtained proper authority to use Multi-Year Contracting for the order, and the Multi-Year order is contingent upon the appropriation of funds.

e. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of an order, if the term licenses and/or maintenance is to be terminated at that time. Orders for the continuation of term licenses and/or maintenance will be required if the term licenses and/or maintenance is to be continued during the subsequent period.

CONVERSION FROM TERM LICENSE TO PERPETUAL LICENSE

- a. The ordering activity may convert term licenses to perpetual licenses for any or all software at any time following acceptance of software. At the request of the ordering activity the Contractor shall furnish, within ten (10) calendar days, for each software product that is contemplated for conversion, the total amount of conversion credits which have accrued while the software was on a term license and the date of the last update or enhancement.
- b. Conversion credits which are provided shall, within the limits specified, continue to accrue from one contract period to the next, provided the software remains on a term license within the ordering activity.
- c. The term license for each software product shall be discontinued on the day immediately preceding the effective date of conversion from a term license to a perpetual license.
- d. The price the ordering activity shall pay will be the perpetual license price that prevailed at the time such software was initially ordered under a term license, or the perpetual license price prevailing at the time of conversion from a term license to a perpetual license, whichever is the less.

TERM LICENSE CESSATION

- a. After a software product has been on a continuous term license for a period of 12 months, a fully paid-up, non-exclusive, perpetual license for the software product shall automatically accrue to the ordering activity. The period of continuous term license for automatic accrual of a fully paid-up perpetual license does not have to be achieved during a particular fiscal year; it is a written Contractor commitment which continues to be available for software that is initially ordered under this contract, until a fully paid-up perpetual license accrues to the ordering activity. However, should the term license of the software be discontinued before the specified period of the continuous term license has been satisfied, the perpetual license accrual shall be forfeited.
- b. The Contractor agrees to provide updates and maintenance service for the software after a perpetual license has accrued, at the prices and terms of Special Item Number 132-34, if the licensee elects to order such services. Title to the software shall remain with the Contractor.

UTILIZATION LIMITATIONS - (SIN 5511210 AND SIN 54151)

- a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.
- b. When acquired by the ordering activity, commercial computer software and related documentation so legend shall be subject to the following:
 - (1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.
 - (2) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.

(3) Except as is provided in paragraph 8.b(2) above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.

(4) The ordering activity shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of Disaster Recovery, the ordering activity has the right to transfer the software to another site if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.

(5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

SOFTWARE CONVERSIONS - (SIN 511210)

Full monetary credit will be allowed to the ordering activity when conversion from one version of the software to another is made as the result of a change in operating system, or from one computer system to another.

DESCRIPTIONS AND EQUIPMENT COMPATIBILITY

The Contractor shall include, in the schedule pricelist, a complete description of each software product and a list of equipment on which the software can be used. Also, included shall be a brief, introductory explanation of the modules and documentation which are offered.

RIGHT-TO-COPY PRICING

Not offered.

TERMS AND CONDITIONS APPLICABLE TO IT SERVICES (SPECIAL ITEM NUMBER 54151S)

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 54151S IT Services apply exclusively to IT Professional Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES I-FSS-60 Performance Incentives (April 2000)

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES

- a. The Contractor shall deliver the services ordered - **As Negotiated Between Contractor and Ordering Agency**.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
- d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

- (1) Cancel the stop-work order; or
- (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

- (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
- (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES

In accordance with FAR 52.212-4 CONTRACT TERMS AND CONDITIONS--COMMERCIAL ITEMS (MAR 2009) (DEVIATION I - FEB 2007) for Firm-Fixed Price orders and FAR 52.212-4 CONTRACT TERMS AND CONDITIONS -COMMERCIAL ITEMS (MAR 2009) (ALTERNATE I - OCT 2008) (DEVIATION I - FEB 2007) applies to Time-and-Materials and Labor-Hour Contracts orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Dec 2007) Rights in Data - General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Professional Services.

9. INDEPENDENT CONTRACTOR

All IT Professional Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT Services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition As prescribed in 16.601(e) (3), insert the following provision:

(a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.

(b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—

- (1) The offeror;
- (2) Subcontractors; and/or
- (3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT SERVICES AND PRICING

- a. The Contractor shall provide a description of each type of IT Services offered under Special Item Numbers 54151S IT Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.
- b. Pricing for all IT Services shall be in accordance with the Contractor's customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices, minimum general experience and minimum education.

The following is an example of the manner in which the description of a commercial job title should be presented:

EXAMPLE: Commercial Job Title: System Engineer

Minimum/General Experience: Three (3) years of technical experience which applies to systems analysis and design techniques for complex computer systems. Requires competence in all phases of systems analysis techniques, concepts and methods; also requires knowledge of available hardware, system software, input/output devices, structure and management practices.

Functional Responsibility: Guides users in formulating requirements, advises alternative approaches, conducts feasibility studies.

Minimum Education: Bachelor's Degree in Computer Science or related field

DocPoints's GSA FSS IT Schedule 70 – Solutions, Products and Services Pricelist

518210DC - Document Conversion Services			
New Item Number	Product Description	Unit/Quantity	Proposed GSA Sched 70 Price
Conversion Unit Cost Items			
DPSDC1001	DOC PREP: Standard - Standard pre-conversion document handling includes: Removal of paper documents from standard bindings or file folders, Minimal staple removal (not to exceed the average of one staple for every ten scanned images), Post conversion, the documents will be returned to the standard bindings or file folders, and The documents will not be re-stapled or reassembled	Page	\$0.05
DPSDC1002	DOC PREP: Enhanced - Any document preparation required to make the collection ready for scanner processing, over and above the Standard Document Handling. May include such items as: Removing documents from non-standard bindings, Removal of more than minimum staples, Insertion of separator sheets and/or paper clips to augment re-stapling after conversion, The handling of post-it notes and/or other non-standard size paper	Page	\$0.08
DPSDC1003	SCANNING/PAPER: Standard - Pages will be scanned at 200/300 dpi, Blank backsides will be removed, Images are de-skewed at the page level, Images are cropped to eliminate excess over scan, 10% of the images are quality assured, Pages, which are larger in size than 8.5"x14", but do not exceed 11"x17" are considered oversized. The fee for oversize scanning is assessed on a per segment basis (segment = 8.5"x11" or portion thereof).	Image	\$0.10
DPSDC1004	SCANNING/PAPER: Enhanced - Pages will be scanned at 200/300 dpi, Blank backsides will be removed, Images will be de-skewed at the page level, Images will be cropped to eliminate excess over scan, Images are rotated to insure proper viewing, 10% of the images are quality assured, Pages, which are larger in size than 8.5"x14", but do not exceed 11"x17" are considered oversized. The fee for oversize scanning is assessed on a per segment basis (segment = 8.5"x11" or portion thereof).	Image	\$0.12
DPSDC1005	SCANNING/APERTURE CARD: Aperture Card Scanning - Cards are scanned at 200 - 300 dpi, Images will be de-skewed at the page level, Images will be cropped to eliminate excess over scan, Images will be inspected for proper rotation and rotated as needed, 10% of the images are quality assured, Hollerith Data from each card is captured during the scanning process and delivered as the index in a delimited ASCII format	Image	\$0.44
DPSDC1006	SCANNING/GRAPHIC ARTS: 35mm Strip Format Film, Black and White and or Color - Standard 35mm Film Strip Scanning includes: Film will be scanned to 300 dpi to an output size of 10" on the long dimension, Images will be cropped to the frame edge, Images will be stored as jpg or tiff uncompressed format, Images will be named using a sequential file naming scheme, Auto-import of customer provided metadata if applicable	Frame	\$1.73

DPSDC1007	SCANNING/GRAPHIC ARTS: 120mm (2 1/4 Strip Format Film; 6x6, 6x7, 6x9 format, Black and White and or Color - Standard 120mm Film Strip Scanning includes: Film will be scanned to 300 dpi to an output size of 10" on the long dimension, Images will be cropped to the frame edge, Images will be stored as jpg or tiff uncompressed format, Images will be named using a sequential file naming scheme, Auto-import of customer provided metadata if applicable	Frame	\$1.73
DPSDC1008	SCANNING/GRAPHIC ARTS: Oversize Transparency Scanning to include 4"x5" up to 8" x 10", Black and White and or Color - Standard Oversize Transparency Scanning includes: Film will be scanned to 300 dpi to an output size of 10" on the long dimension; 3000 ppi, Images will be cropped to the frame edge, Images will be stored as jpg or tiff uncompressed format, Images will be named using a sequential file naming scheme, Auto-import of customer provided metadata if applicable	Frame	\$5.43
DPSDC1009	SCANNING/BOOKS: Standard Size Bitonal - Books will be scanned to 300 dpi bitonal tiff format, Images will be de-skewed and cropped to the page edge, Images are rotated to insure proper viewing, Images Quality Controlled to ensure no pages missing, Books with an open dimension up to 17" x 22" will be considered standard. Oversize Books which exceed an open dimension are covered under TCC00006 and TCC00007	Image	\$0.25
DPSDC1010	SCANNING/BOOKS: Standard Size Grayscale/Color - Books will be scanned to 300 dpi grayscale or color format, Images will be de-skewed and cropped to the page edge, Images are rotated to insure proper viewing, Images Quality Controlled to ensure no pages missing, Books with an open dimension up to 17" x 22" will be considered standard. Oversize Books which exceed an open dimension are covered under TCC00006 and TCC00007	Image	\$0.35
DPSDC1011	SCANNING/BOOKS: Oversize Bitonal - Books will be scanned to 300 dpi bitonal tiff format, Images will be de-skewed and cropped to the page edge, Images are rotated to insure proper viewing, Images Quality Controlled to ensure no pages missing, Books with an open dimension in excess of 17" x 22" and up to 23" x 34" will be considered oversize.	Image	\$0.64
DPSDC1012	SCANNING/BOOKS: Oversize Grayscale/Color - Books will be scanned to 300 dpi grayscale or color format, Images will be de-skewed and cropped to the page edge, Images are rotated to insure proper viewing, Images Quality Controlled to ensure no pages missing, Books with an open dimension in excess of 17" x 22" and up to 23" x 34" will be considered oversize.	Image	\$0.84
DPSDC1013	SCANNING: Enhanced Image QA - Perform additional image quality checks to achieve image quality level of 100% as measured at the batch level.	Image	\$0.03
DPSDC1014	INDEXING/PAPER COLLECTIONS: Folder/Book Level - I - Three (3) fields or up to 20 characters of alphanumeric data captured from file folder cover or tab, Data to be captured must be clearly available on the outside of each file folder, Data capture will be double key entry to ensure accuracy, Optionally match key entry against customer provided data, The index database is delivered in a delimited ASCII format, Index Quality Assurance of 99% at a minimum as measured at the batch level	Folder/Bk	\$0.13

Conversion Unit Cost Items			
DPSDC1015	INDEXING/PAPER COLLECTIONS: Document Level – I - Two (2) fields or up to 12 characters of alphanumeric data captured from individual documents, Data to be captured must be consistently located on the first page of each document, clearly identifiable and legible, Key entry is single pass, The index database is delivered in a delimited ASCII format, Index Quality Assurance of 95% at a minimum as measured at the batch level, <i>Requires Enhanced Paper Scanning QAI506019B</i>	Document	\$0.14
DPSDC1016	INDEXING/PAPER COLLECTIONS: Document Level – II - Three (3) fields or up to 20 characters of alphanumeric data captured from individual documents, Data to be captured must be consistently located on the first page of each document, clearly identifiable and legible, Key entry is single pass, The index database is delivered in a delimited ASCII format, Index Quality Assurance of 95% at a minimum as measured at the batch level, <i>Requires Enhanced Paper Scanning QAI506019B</i>	Document	\$0.17
DPSDC1017	INDEXING/PAPER COLLECTIONS: Document Type Level – I - Add additional intelligence to the image index database by including a Document Type Identifier, As part of the indexing process, identify 1-5 unique document types, Definitive examples of each Document Type supplied by the customer, Document types must be clearly unique and identifiable by a Title or Form Number, A Document Type with multiple versions (i.e. revised or re-designed forms) may be considered as multiple Document Types if not clearly similar, Accuracy level of Document Types is 95% at a minimum as measured at the batch level, <i>Requires Enhanced Paper Scanning QAI506019B</i>	Document	\$0.02
DPSDC1018	INDEXING/PAPER COLLECTIONS: Document Type Level – II - Add additional intelligence to the image index database by including a Document Type Identifier, As part of the indexing process, identify 6-10 unique document types, Definitive examples of each Document Type supplied by the customer, Document types must be clearly unique and identifiable by a Title or Form Number, A Document Type with multiple versions (i.e. revised or re-designed forms) may be considered as multiple Document Types if not clearly similar, Accuracy level of Document Types is 95% at a minimum as measured at the batch level, <i>Requires Enhanced Paper Scanning QAI506019B</i>	Document	\$0.02
DPSDC1019	INDEXING/PAPER COLLECTIONS: Document Type Level – III - Add additional intelligence to the image index database by including a Document Type Identifier, As part of the indexing process, identify 11-15 unique document types, Definitive examples of each Document Type supplied by the customer, Document types must be clearly unique and identifiable by a Title or Form Number, A Document Type with multiple versions (i.e. revised or re-designed forms) may be considered as multiple Document Types if not clearly similar, Accuracy level of Document Types is 95% at a minimum as measured at the batch level, <i>Requires Enhanced Paper Scanning QAI506019B</i>	Document	\$0.02
DPSDC1020	INDEXING/PAPER COLLECTIONS: Enhanced Index QA - Perform additional index quality assurance checks to achieve accuracy level of 99% or better as measured at the batch level.	Document	\$0.11

Conversion Unit Cost Items			
DPSDC1021	INDEXING/IMAGES FROM APERTURE CARDS: Standard (Requires at least one of the following items – QAI506021A-E) - Hollerith punched data, if present, captured at scan time, The index database is delivered in a delimited ASCII format, Included in the scanning fee, For additional indexing from the converted image, refer to <i>Additional Indexing and Key Stroking</i> below.	Image	\$0.02
DPSDC1022	ADDITIONAL INDEXING & KEY STROKING: Level – I - Capture additional index values from paper based collections, Data to be captured must be legible and consistent in nature, The accuracy level of keystroke data will be 95% at a minimum, The Fee is on a per keystroke basis	Keystroke	\$0.01
DPSDC1023	ADDITIONAL INDEXING & KEY STROKING: Level – II - Capture additional index values from image based collections, Data to be captured must be legible and consistent in nature, The accuracy level of keystroke data will be 95% at a minimum, The Fee is on a per keystroke basis	Keystroke	\$0.01
DPSDC1024	ADDITIONAL INDEXING & KEY STROKING: Level – III - Enhanced Quality Assurance of keystroke data to achieve an accuracy level of 98.5%, Accuracy rate is measured at the batch level	Keystroke	\$0.01
DPSDC1025	PDF CONVERSION: Image Only - Scanned TIFF images are converted to an image only PDF format	Page	\$0.03
DPSDC1026	PDF CONVERSION: Image Plus Hidden Text - Paper documents scanned at 300dpi, Textual data will be converted to ASCII utilizing OCR technology, OCR text will be hidden behind original image. Document is searchable, This service is available for paper based collections only	Page	\$0.04
DPSDC1027	PDF CONVERSION: PDF Normal - Paper documents raster scanned at 300dpi, Textual data will be converted to ASCII utilizing OCR technology, All free standing, standard character text larger than 6 point will be proofed and edited to insure accuracy of 99% or greater at the document level Graphics will be 100% quality assured and provided as 300dpi raster graphics, The original fonts and format of the document will be maintained, This service is available for paper based collections only	Page	\$3.45
DPSDC1028	PDF CONVERSION: Hyper-Linking and Book-Marking - Automated methods will be utilized to create hyperlinks and bookmarks for each entry in the Table of Contents and other Content Reference Pages, Automated methods will be utilized to create internal references	Link	\$0.25
DPSDC1029	Delivery Media: CD	Each	\$12.31

Services Categories				
DPSERM1001	Program Manager	MS/BS/BA in IT Field - Responsible for all activities relating to program/technical guidance for planning, directing, and monitoring large/multiple contract/task operations. Plans, recommends and implements contract/task activities, modifications, or related requirements.	\$88.53	\$101.79
DPSERM1002	Project Manager	MS/BS/BA in IT Field - Responsible for all activities relating to technical guidance for planning, directing, and monitoring a contract/task operation. Plans, recommends and implements contract/task activities, modifications, or related requirements.	\$81.21	\$93.40
DPSERM1003	Subject Matter Expert	PhD/MS/BS/BA in IT or Scientific Field - Specialized experience includes: supervision of system architects, use of structured analysis, design methodologies and design tools (such as IDEF 1x, entity relationship diagrams, and other design techniques), object oriented principles, and experience with the logical and physical functional, operational, and technical architecture of large and complex information systems. General experience includes increasing responsibilities in systems engineering.	\$106.53	\$122.51
DPSERM1004	Senior Principal Analyst	MS/BS/BA in IT Field - Evaluates, designs and maintains existing or proposed enterprise-wide systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new and/or modifying existing large-scale systems.	\$102.75	\$118.16
DPSERM1005	Principal Analyst	MS/BS/BA in IT Field - Analyzes/Defines/Implements system and user specifications for enterprise-wide systems, applications, and/or solutions.	\$86.44	\$99.40
DPSERM1006	Senior Systems Analyst	MS/BS/BA in IT Field - Evaluates, designs and maintains existing or proposed complex systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new and/or modifying existing systems.	\$79.95	\$91.96
DPSERM1007	Mid Systems Analyst	MS/BS/BA in IT Field - Analyzes/Defines/Implements system and user specifications for complex systems, applications, and/or solutions.	\$69.13	\$79.49
DPSERM1008	Systems Analyst	BS/BA in IT Field - Analyzes/Defines/Implements system and user specifications for complex systems, applications, and/or solutions.	\$58.61	\$67.40
DPSERM1009	Senior Applications Programmer	MS/BS/BA - Defines and implement specification for complex systems or applications or modifies/maintains complex existing systems. Responsible for quality assurance.	\$69.75	\$80.21
DPSERM1010	Applications Programmer	BS/BA - Provides programming and maintenance services of computer applications and operating software. Tests and debugs software programs and develops operating instructions.	\$49.33	\$56.72
DPSERM1011	Senior Data Management Specialist	MS/BS/BA in IT Field - Evaluates, designs and maintains existing or proposed complex database systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new internal programs or modifications to vendor software.	\$86.72	\$99.74
DPSERM1012	Data Management Specialist	BS/BA in IT Field - Installs and modifies various database applications. Provides direction to workstation operators.	\$78.12	\$89.84
DPSERM1013	Computer Systems Analyst	BS/BA/HS w/Training Certificate - Writes, evaluates, analyzes, and tests new and enhanced hardware and software. When	\$59.73	\$68.69

USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION PROCUREMENT PROGRAMS

PREAMBLE

DocPoint Solutions, LLC provides commercial products and services to ordering activities. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in ordering activity contracts. To accelerate potential opportunities please contact:

BPA NUMBER _____

**(CUSTOMER NAME)
BLANKET PURCHASE AGREEMENT**

Pursuant to GSA Federal Supply Schedule Contract Number(s) _____, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (ordering activity):

(1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

MODEL NUMBER/PART NUMBER	*SPECIAL BPA DISCOUNT/PRICE
_____	_____
_____	_____
_____	_____

(2) Delivery:

DESTINATION	DELIVERY SCHEDULES / DATES
_____	_____
_____	_____
_____	_____

(3) The ordering activity estimates, but does not guarantee, that the volume of purchases through this agreement will be _____.

(4) This BPA does not obligate any funds.

(5) This BPA expires on _____ or at the end of the contract period, whichever is earlier.

(6) The following office(s) is hereby authorized to place orders under this BPA:

OFFICE	POINT OF CONTACT
_____	_____
_____	_____
_____	_____

(7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

(8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

- (a) Name of Contractor;
- (b) Contract Number;
- (c) BPA Number;
- (d) Model Number or National Stock Number (NSN);

- (e) Purchase Order Number;
- (f) Date of Purchase;
- (g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
- (h) Date of Shipment.

(9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.

(10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.

BASIC GUIDELINES FOR USING “CONTRACTOR TEAM ARRANGEMENTS”

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to a ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- Customers make a best value selection.
